

TECHNICAL SUPPORT - ENGINEERING, MONITORING & SURVEYING

Crazy Horse Memorial is currently searching for a Full-Time Mountain Technical Support - Engineering, Monitoring & Surveying person. This position is another integral part of the Mountain carving process. This position will participate in land surveys and laser scans of the Mountain and the Models and help to update computer models with survey and scan data, supporting the maintenance of technical materials including surface models, CAD drawings, scale drawings, writings, tables and databases. Provides technical support for Mountain projects and will work with the department manager to develop additional support processes and applications. The successful candidate will possess strong technical and math skills, have a strong understanding of and experience with the Microsoft Office Suite, AutoCAD Civil 3D, Polyworks, Trimble Business Center and or Real Works as well as other applications including GIS. Having training or experience in one of these fields is a plus: Geology, Geological Engineering, Mining Engineering, Civil Engineering, or related field. Experience with land survey methods and equipment and processes, laser scanning equipment and processes and experience in maintaining CAD drawings are strongly preferred. Benefits including health, paid time off, paid holidays and discounts are provided.
